

Dentsply Sirona announces a comprehensive restage of its Implant business

September 24, 2021

- **With a digital base, historical product strength and signature workflows supported by ongoing education and training, Dentsply Sirona is launching DS Implants, harmonizing successful brands like Simplant, OSSIX, Atlantis and MIS.**
- **Three completely connected, seamless signature workflows will take full advantage of digital dentistry for excellent outcomes and patient satisfaction.**
- **DS Implants presents DS PrimeTaper, a self-tapping implant with a tapered design that can be inserted safely and easily with a unique double thread, enabling long-term bone stability.**

CHARLOTTE, N.C., Sept. 23, 2021 (GLOBE NEWSWIRE) -- DENTSPLY SIRONA Inc. ("Dentsply Sirona") (Nasdaq: XRAY) introduces a comprehensive restage of its Implants business, including three signature workflows to provide dental professionals with a completely new way of practicing implantology and solutions from scan to crown that outperform expectations in efficiency, accuracy, esthetics, longevity and simplicity.

- The **Single Tooth Signature Workflow** enables customers to do more and better, faster, simpler, freeing up time to see more patients.
- The **Partial Multiple Tooth Replacement Signature Workflow** for more confidence for the clinician and more comfort for the patient.
- The **Full Arch Signature Workflow** addresses a signature patient case with an edentulous maxilla.

With a complete ecosystem of digital solutions and products Dentsply Sirona is streamlining implant treatments for practice growth and consistent patient satisfaction.

Comfort with new products based on well-known procedures

Additionally, Dentsply Sirona Implants presents DS PrimeTaper, a self-tapping implant with a tapered design that can be inserted safely and easily with a unique double thread, enabling long-term bone stability. Dentsply Sirona worked closely with the global implant key opinion leader community, and they have already started gaining experience with the product. Their reactions have been very positive:

Dr. Dan Butterman, dentist from Centennial, Colorado (USA), emphasizes the importance of a seamless workflow. "DS PrimeTaper represents the next step in implant dentistry. The digital-driven workflow results in higher accuracy, repeatability of processes, and time savings." Butterman adds, "My patients have better things to do than spending time in my office. Thanks to clearly defined processes and digital solutions, I can offer safer and faster treatment options which my patients appreciate. That's what efficiency is all about!"

Seamless concept for transforming digital implant dentistry

"Dentsply Sirona is about intelligent concepts that work intuitively and improve the predictability of treatment," said Dr. Terri Dolan, Chief Clinical Officer at Dentsply Sirona. "Our goal is to enable clinicians, including both specialists and general practitioners, to focus on what they do best – creating healthy and beautiful smiles. Our vision for digital implant dentistry will be supported by a global clinical education program focused on end-to-end digital implant workflow solutions to achieve clinic, technical and practice excellence. The extensive curriculum is designed to build clinicians' digital implant skills according to their level of experience and personal learning preferences. These include online education and personalized learning, as well as more than 50 state-of-the art Dentsply Sirona Academy education centers around the world."
