DENTSPLY International Reports Second Quarter 2013 Results

- Earnings per diluted share of \$0.60 on a US GAAP reported basis and a record \$0.66 on an adjusted basis
- Adjusted operating margin expanded 60 basis points to 19.2% from 18.6% in the prior year

York, PA - August 1, 2013 - DENTSPLY International Inc. (NASDAQ: XRAY) today announced sales and earnings for the three months ended June 30, 2013.

Net sales in the second quarter of 2013 were essentially flat at \$761.0 million compared to \$763.0 million in the second quarter of 2012. Net sales, excluding precious metals content, in the second quarter of 2013 of \$716.0 million increased 2.5% from \$698.5 million in the second quarter of 2012. Constant currency net sales growth, excluding precious metals content, in the second quarter was 2.7%, reflecting strong internal growth in the U.S. and more modest internal growth in the other geographic regions.

Net income attributable to DENTSPLY International for the second quarter of 2013 was \$87.2 million, or \$0.60 per diluted share, compared to \$80.8 million, or \$0.56 per diluted share in the second quarter of 2012. On an adjusted basis, excluding certain items, earnings grew 7% to \$0.66 per diluted share for the second quarter of 2013 from \$0.62 in the same period in 2012. A reconciliation of the non-GAAP measure to earnings per share calculated on a US GAAP basis is provided in the attached table.

"DENTSPLY achieved record adjusted earnings for the second quarter driven by an acceleration of internal growth in the U.S. and expansion of adjusted operating margins," said Bret Wise, Chairman and Chief Executive Officer. "Although we are pleased with our second quarter performance, market conditions continue to be difficult in Europe and movement of currency exchange rates has created some further headwind in the second half of the year. As a result, we are revising our expectations for adjusted earnings per share for 2013 to a range of \$2.33 to \$2.38."

DENTSPLY International Inc. is a leading manufacturer and distributor of dental and other consumable medical device products. The Company believes it is the world's largest manufacturer of consumable dental products for the professional dental market. For over 110 years, DENTSPLY's commitment to innovation and professional collaboration has enhanced its portfolio of branded consumables and small equipment. Headquartered in the United States, the Company has global operations with sales in more than 120 countries. Visit www.dentsply.com for more information about DENTSPLY and its products.

This press release contains forward-looking information (within the meaning of the Private Securities Litigation Reform Act of 1995) regarding future events or the future financial performance of the Company that involve substantial risks and uncertainties. Actual events or results may differ materially from those in the projections or other forward-looking information set forth herein as a result of certain risk factors. These risk factors include, without limitation; the continued strength of dental and medical markets, the timing, success and market reception for our new and existing products, uncertainty with respect to governmental actions with respect to dental and medical products, outcome of litigation and/or governmental enforcement actions, continued support of our products by influential dental and medical professionals, our ability to successfully integrate acquisitions, risks associated with foreign currency exchange rates, and changes in the general economic environment that could affect the business. Changes in such assumptions or factors could produce significantly different results.

For an additional description of risk factors, please refer to the Company's most recent Form 10-K and its subsequent periodic reports on Forms 10-Q filed with the Securities and Exchange Commission.

Non-US GAAP Financial Measures

In addition to the results reported in accordance with US GAAP, the Company provides adjusted net income attributable to DENTSPLY International and adjusted earnings per diluted common share. The Company discloses adjusted net income attributable to DENTSPLY International to allow investors to evaluate the performance of the Company's operations exclusive of certain items that impact the comparability of results from period to period and certain large non-cash charges related to purchased intangible assets. The Company believes that this information is helpful in understanding underlying operating trends and cash flow generation. The adjusted net income attributable to DENTSPLY International adjusted to exclude the impact of the following:

- (1) Acquisition related costs. These adjustments include costs related to integrating recently acquired businesses and specific costs related to the consummation of the acquisition process. These costs are irregular in timing and as such may not be indicative of past and future performance of the Company and are therefore excluded to allow investors to better understand underlying operating trends.
- (2) Restructuring and other costs, including legal settlements. These adjustments include both costs and income that are irregular in timing, amount and impact to the Company's financial performance. As such, these items may not be indicative of past and future performance of the Company and are therefore excluded for the purpose of understanding underlying operating trends.

- (3) Amortization of purchased intangible assets. This adjustment excludes the periodic amortization expense related to purchased intangible assets. Following a significant acquisition in 2011, the Company began recording large non-cash charges related to the values attributed to purchased intangible assets. These charges have been excluded from adjusted net income attributed to DENTSPLY International to allow investors to evaluate and understand operating trends excluding these large non-cash charges.
- (4) Income related to credit risk and fair value adjustments. These adjustments include both the cost and income impacts of adjustments in certain assets and liabilities that are recorded through net income which are due solely to the changes in fair value and credit risk. These items can be variable and driven more by market conditions than the Company's operating performance. As such, these items may not be indicative of past and future performance of the Company and therefore are excluded for comparability purposes.
- (5) Certain fair value adjustments at an unconsolidated affiliated company. This adjustment represents the fair value adjustment of the unconsolidated affiliated company's convertible debt instrument held by the Company. The affiliate is accounted for under the equity method of accounting. The fair value adjustment is driven by open market pricing of the affiliate's equity instruments, which has a high degree of variability and may not be indicative of the operating performance of the affiliate or the Company.
- (6) Income tax related adjustments. These adjustments include both income tax expenses and income tax benefits that are representative of income tax adjustments mostly related to prior periods, as well as the final settlement of income tax audits. These adjustments are irregular in timing and amount and may significantly impact the Company's operating performance. As such, these items may not be indicative of past and future performance of the Company and therefore are excluded for comparability purposes.

Adjusted earnings per diluted common share is calculated by dividing adjusted net income attributable to DENTSPLY International by diluted weighted-average common shares outstanding. Adjusted net income attributable to DENTSPLY International and adjusted earnings per diluted common share are considered measures not calculated in accordance with US GAAP, and therefore are non-US GAAP measures. These non-US GAAP measures may differ from other companies. Income tax related adjustments may include the impact to adjust the interim effective income tax rate to the expected annual effective tax rate. The non-US GAAP financial information should not be considered in isolation from, or as a substitute for, measures of financial performance prepared in accordance with US GAAP.
